Exquisite Design

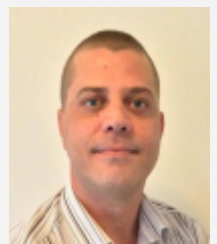

This family home is designed for elegant entertainment events offering open plan areas and elevated ceilings. The lounge opens completely into the garden and is completed with a traditional fire place, leading into the kitchen and dining room. To completely utilise all spaces, a built in bar with counter space for chairs has been built in, an interior courtyard to enjoy and relax in as well as a pajama lounge for the bedrooms upstairs. The master bedroom is found on the ground floor, with an open plan bathroom and separate toilet. Upstairs the remaining 3 bedrooms are found with 2 bathrooms and a study nook. But that is not all, the home is connect with an enclosed walkway leading to a fully functional garden cottage. This in turn offers an open plan kitchen, dining and living room that opens into the front garden. Upstairs there is also a pajama lounge that opens onto a semi covered balcony overlooking the garden. Both bedrooms have en-suite bathrooms. The home can either be utilised as a 4 bedroom house with a flatlet, or a majestic 6 bedroom house. The house has been designed in such a manner that both is an option.
