Old Charmer in De Rust

This property is ideal for the city sleeker weekend brake away destination. It could also be a family home in a lovely old town or if you want to consider it as an extra income generator for using it as a guesthouse or air bnb. The property is very private because of the walls at the front and a farm as next door neighbor at the back. It is a historical building with beautiful ceilings. The house is situated on a huge plot with an established garden and trees. There's an out building which offers huge potential to be turned into a business or a workshop. The property has a beautiful swimming pool and entertaining covered patio. Every room has its own on suite and its really spacious and two rooms opens out to the swimming pool area The property is really something special.

ERF Size 1,566 m²
